EDUCATION

Bachelor of Arts - Honours Arts & Business. Expected 12/2026 | Waterloo, ON
University of Waterloo
- Relevant Coursework: Strategy & Program Integration, Accounting Information for Managers, International Business, Principles ofMarketing.

EXPERIENCE

President 04/2026 – 12/2026 | Waterloo, ON
University of Waterloo Economics Society (UWES)
- Leading a **20-member cross-functional team** across events, research, marketing, and communications portfolios overseeing **hiring, onboarding, and organizational structure** to support club-wide expansion.
- Launched a **research program and economics newsletter**, managing **end-to-end execution** from content planning to publication to drive member engagement.
- Directing **full-cycle event planning and coordination**, managing timelines, logistics, and **stakeholder alignment** across departments to ensure on-time delivery.
- Defined **operational workflows and role accountability** frameworks across the executive team, improving **cross-functional coordination** and execution consistency.

Marketing, Social Media & Salvage Partnership Assistant 01/2025 – 04/2025 | Windsor, ON
Habitat for Humanity Windsor - Essex
- Designed and supported a **CRM-enabled partnership workflow** to manage donor intake, scheduling, and volunteer coordination, improving process visibility and reducing manual tracking across teams.
- Coordinated **logistics and supplier-style partnerships with 40+ local businesses**, strengthening inventory flow and supporting ReStore revenue-generating operations.
- Analyzed **program activity and engagement data** to inform outreach prioritization, scheduling decisions, and resource allocation.
- Standardized operational documentation and processes used by field teams, improving consistency, efficiency, and cross-functional coordination.

AI / ML Analyst 05/2024 – 08/2024 | Waterloo, ON
Smart serve / University of Waterloo
- Analyzed **customer interaction data and response-time metrics** from the Zendesk chatbot, contributing to an approximately 30% reduction in average response time based on internal performance reporting.
- Evaluated **AI-driven customer service solutions** (generative replies, conditional logic, multilingual support, bot personas) to improve first-contact resolution and reduce user friction.
- Conducted **comparative platform analysis** across Zendesk, Freshdesk, and Google Dialogflow, assessing cost, scalability, integration capability, and operational tradeoffs.
- Synthesized technical research and system testing into **structured operational recommendations**, supporting improvements in course integrity, customer satisfaction, and data-driven decision-making.

Projects

LeoTrax – Global Business Strategy Simulation 01/2026 – 04/2026
President & VP Analytics | University of Waterloo Academic Project
- Led **business strategy, performance analysis, capacity planning, pricing, and market expansion** for a simulated global company, scaling from **1 to 4 international markets** and expanding the sales force from **5 to 33 representatives**.
- Analyzed **demand forecasts, operating capacity, and resource allocation trade-offs**, supporting production growth from approximately **1,000 to 3,600+ units** and identifying a **6,072-unit demand vs. 3,686-unit capacity gap** that drove revised operating strategy.
- Supported **$2.2M+ in R&D investment** and cross-functional decision making across finance, marketing, operations, and manufacturing, helping achieve the simulation's **highest cumulative Balanced Scorecard (8.732) and $1M+ in profit**.
