To whom it may concern,

I, Smita Agarwal, the Founder of 'Yeh Mera India' a non-profit organization committed to social service globally, am delighted to write this Letter of recommendation for Ishaan Wasan. I had the pleasure of watching him develop professionally over the past three months. He has played key roles in various projects and has showed exemplary enthusiasm and motivation to work for a good cause.

Ishaan is amiable and hardworking colleague. He has been fantastic. He is always willing to do whatever task allocated to him. Ishaan quickly learned and adapt the work and was able to handle the task independently. Ishaan is an asset to organization from management perspective. He is able to work independently and collaborate with colleagues via effective communication. Ishaan is also able to prioritize various tasks and is consistently punctual, making him a dependable team-member.

Through the strenuous times of the covid-19 pandemic, Ishaan has been a diligent worker for YMI, dedicated to making the lives of the underprivileged better and spreading awareness in every way possible.

In my opinion Ishaan has shown himself to be resourceful and productive. He maintains a cheerful personality and has displayed his capacity to hone multifaceted roles. He has a kind heart for social service with a mind well-suited for business.

I am confident that Ishaan will be a wonderful addition to any organization.

Sincerely,

Smita Agarwal
Founder, Yeh Mera India
